

OFF ROAD CHAIN LUBE

OFF ROAD CHAIN LUBE

USES

This oil is particularly suitable for lubricating off-road motorcycle chains (motocross, enduro, trial) and road motorcycles driven at moderate speed (tourism, roads, short trips).

For high-speed biking (competition, motorways) and karts, preferably use Yacco ROAD CHAIN LUBE.

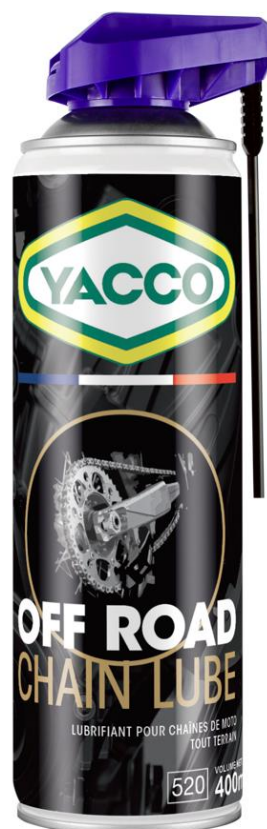

PROPERTIES & ADVANTAGES

- ▶ Excellent lubrication power.
- ▶ Protection of O-rings.
- ▶ Outstanding water resistance.
- ▶ Good adhesion.
- ▶ Excellent penetration into the chain links.
- ▶ Prevents sand and dust from sticking.
- ▶ Very good anti-wear and anti-corrosion properties.
- ▶ Specific additives extend the service life of the chain.
- ▶ Reduces friction and wear.

OPERATING PROCEDURE

1. Clean the chain.
2. Shake the aerosol.
3. Spray on the inner side of the chain.
4. Let the oil penetrate for a few minutes.
